## INFORMATION RELEASE

### MOHAVE COUNTY PUBLIC WORKS DEPARTMENT

#### Construction Projects / Road Work

Week of June 15, 2009

*Mohave County Public Works serves citizens on many levels. Public Works Divisions include Roads, Parks, Landfills, Traffic Control, Improvement Districts, Water Systems, Engineering, Facilities Maintenance, Fleet Services and Equipment Maintenance. In an ongoing effort to keep citizens informed and safe, the following is a summary of upcoming roadwork that may affect motorists.*

#### **ROAD MAINTENANCE:**

In the **Meadview and Dolan Springs** area, crews will be focusing on **Pierce Ferry Road**, repairing aprons and approaches south of Meadview and at Sandy Point Dr., and repairing broken pavement edges from MP 28 - 34. The **Diamond Bar Road** blade is ongoing.

In the Kingman area, Traffic Control crews will be painting centerline striping on the following streets in Butler: Northern Ave., Bank St., Powell Ave., Sierra Vista Ave., Bond St., College Dr. Jagerson Ave., Willow Dr., Patsy Dr., Castle Rock Rd. and Diagonal Way.

In **Golden Valley**, the regular blade routes will be in operation. Maintenance crews will be sealing roadway cracks on **Oatman Road** from Shinarump Drive, heading 10 miles west, in preparation for chip sealing. Also on **Oatman Road**, crews will be maintaining shoulders from Ramada Rd. to Ed's Camp.

In the **Mohave Valley** area, crews will chip sealing roads in **The Willows at Cimarron Lake**, followed by **Willow Valley Estates**, and lastly **Bermuda Acres** and **Bermuda Dunes**. *Please see attached pages for streets included in these projects.* The pickup broom will be sweeping roads with curb and gutter in subdivisions south of Joy Lane, including **Fairway Estates, Desert Lakes Estates, Los Lagos** and **Sunrise Estates**.

In the **Lake Havasu City** area, workers will be sweeping in Desert Hills, on Jennie, Joyce, and Erwin Lanes, and on Mescalero, Diane and Pero Drives. Crews will also be trimming trees on London Bridge Rd. and Fathom Dr.

#### **CONSTRUCTION:**

The County has contracted with **JNJ Engineering Construction, Inc.**, for the repair of **eight culverts on Oatman Road**. The culverts are located between the village of Oatman and Gold Road. This project should be completed this week.

The **County Road Department** has been contracted by the Flood Control Division's Channel Maintenance Program to begin work on the **Suffock Wash** from Sierra Rd. to Marshall Dr. Overgrown vegetation and garbage will be removed, erosion gullies will be filled, and the channel slopes and bottoms will be reshaped.

**The Hualapai Tribe, Bureau of Indian Affairs, and Grand Canyon West** have contracted with **Fann Contracting Inc.** for major road construction on **Diamond Bar Road**. The project will include paving the first four miles of the road, beginning at Pierce Ferry Road. This week, trucks will be hauling aggregate base materials to be used for the new road, and graders may be at work as well, although work thus far has been confined to shoulders. Flagmen will be present at both ends of the project, and motorists should expect slowdowns, but **road closures are not anticipated**. *Mohave County is not involved in this project, but offers this information as a courtesy to motorists.*

**IN THE EVENT OF MECHANICAL FAILURE, INCLEMENT WEATHER OR OTHER UNFORESEEN CONDITIONS,  
THE ABOVE DESCRIBED SCHEDULE IS SUBJECT TO CHANGE**

**For more information, call the Mohave County Public Works Department at 928-757-0910  
or visit the Mohave County web site: [www.co.mohave.az.us](http://www.co.mohave.az.us)**
