**Touch-screen testing:** Mohave County Elections Director Allen Tempert and Deputy Director Betty Vernon stand behind their work, literally, Wednesday, Jan. 25, at the County Administration Building in Kingman. Handicap-accessible, touch-screen (TSX) voting equipment goes through a series of accuracy tests prior to any election. During the Presidential Preference Election (PPE) in February, there will be one TSX machine at every voting poll site; 36 throughout the county. During the PPE, registered Republicans and Green Party members can vote to choose their party's Presidential candidate. January 30 is the last day to register to vote in the PPE which will be held on February 28. For more information, go to the Elections Department website ([www.co.mohave.az.us](http://www.co.mohave.az.us)) and select Department, Elections, or call (928) 753-0733, option 2. Important dates for all 2012 elections, voting poll sites and other information can be found on the Elections Department website.
